

PROJECT PROFILE

<i>Name:</i>	Colliers International. Queen Street office tenancy part refurbishment
<i>Owner:</i>	Colliers International
<i>Client:</i>	Isis Projects Pty Limited
<i>Project Description:</i>	Communications and power upgrade to accommodate new partition work at the award winning city office tenancy.
<i>Site Location:</i>	Brisbane CBD
<i>Value at Completion:</i>	\$45,000
<i>Year Completed:</i>	2007
<i>Referees:</i>	Name: Phuong Hua Title: Project Manager Organisation: Isis Projects Ph: (07) 3871 3800

A fastrack project delivered either side of Easter over a very short time frame. Tenancy was fully occupied during the works period and the delivery plan focused on noise minimisation and HSEC for both our employees and the client.

Delivery was a combined Diverse Data Communications and O'Donnell Griffin partnership approach.

- The project involved a switchboard upgrade.
- C-bus system and lighting alterations.
- Included the supply and installation of soft start power and communications outlets and a new communications rack.
